INSPECTION

**Third-Party
Inspection Available**At the buyer's cost, on
request.

HOW WE WORK

Built around the buyer's requirement.

SOURCE

Origin-ledWe work close to producing
regions and established
supply networks.

VERIFY

Specification firstProduct, quality, quantity and
documentation are aligned
before shipment.

COORDINATE

**One commercial
point**We coordinate sourcing,
communication and export
execution around the order.

DELIVER

Practical executionThe objective is a clear
transaction with fewer
surprises between origin and
destination.

A manufacturer knows its own product deeply. A conventional trader may offer many products, but does not always work across the full range of specifications and sources available for the same product. We work with multiple origins and suppliers for the same products, giving us a broader understanding of available specifications, qualities, and sourcing options. This allows us to match the buyer's requirement with the right source—not simply offer what one manufacturer produces or what happens to be available in the market.

PAYMENT & QUALITY

How payment and quality assurance work.

Payment terms

We work on Letter of Credit (LC), Telegraphic Transfer (TT), or Cash Against Documents (CAD), and agree the specific structure with each buyer before confirming an order — for example, an advance against TT, or documents released through a bank under CAD. If you have a payment structure your company requires, tell us early and we'll confirm whether it fits.

Quality & inspection

Every shipment ships against an agreed specification and a Certificate of Analysis. Third-party inspection (SGS, Intertek or an agency of your choice) can be arranged at the buyer's cost before loading, so you have an independent result in hand — not just ours — before the container leaves port. If a shipment doesn't match the agreed COA, that discrepancy is handled directly with you against the inspection report; raise it as soon as it's identified so it can be resolved while the shipment is still traceable.

Who you're speaking to

Every inquiry is handled directly by **Vishal** (calls and WhatsApp: [+91 99094 76733](tel:+919909476733)) and **Shezad** (email: shezad@vptradelink.com) — not a call centre, and not a rotating account manager. You'll be dealing with the same two people from first inquiry through to shipment.

**PRODUCT PORTFOLIO****Twelve export products, three categories.**

12 products across 3 categories — full specifications in the Product Catalogue and individual Technical Data Sheets.

01 Feed Ingredients

Rapeseed Extraction Meal

Soybean Meal

Guar Churi

02 Industrial Minerals

Quartz

Potash Feldspar

Soda Feldspar

China Clay (Kaolin)

Bentonite

03 Agricultural Commodities

Sesame Seeds

Cumin Seeds

Psyllium Husk

Groundnuts

Quality & Assurance**Agreed specification**

Every shipment ships against an agreed spec and Certificate of Analysis.

Independent inspection

Third-party inspection (SGS/Intertek) at buyer's cost before loading.

Multiple sources

Multiple producers per product — spec matched to buyer, not one mill's output.
